Admitted vs. Non-Admitted Companies

Admitted Construction Insurance Companies are companies that are licensed in the State of California and contributes to the California Insurance Guarantee Fund.

The California Guarantee Fund is a pool of money set aside by the State of California. Everyone who buys General Liability insurance in California is charged a percentage of his or her insurance premiums to go into the pool. This pool of money is set aside to handle claims by people in the State whose Insurance Company cannot pay their claims. The California Guarantee Fund will pay claims if there are no other companies to pay claims. If there are other companies to pick up the claim, the California Guarantee Fund will not share in the claim.

Non-Admitted companies do not contribute to the California Guarantee Fund's pool. If a Non-Admitted company goes out of business, you have no recourse....

Non-Admitted companies are not necessarily a bad deal. They fill a gap in California and provide competition for the Contractor business. However if you use a Non Admitted insurance company with a bad financial rating you might be asking for trouble.

I caution you to ask your agent for the financial status of the company he or she is placing your insurance with. If the agent tells you they don't know and they can not find outget a new agent. The person your doing business doesn't know the construction insurance business, you are paying them (commission) to know what they are talking about and if they don't find a new agent who does.
